How to Quote for books prited digitaly on HP indigo.

step 1; Determine size i.e. is it a4/a5/dl size/20x20

step 2; Find out how many UPS on an a3 sheet books are usually printed bith sides
so therefore depending on if it si a4/a5 you will either have 4/8 ups.

step 3; Once you know how many a3 sheets use the a3 sheet price depending on
quantiy to give the best quotes.

step 4; Add finishing prices.

Signage Prices/Quotation

Due to signage products being complicated in nature its impossible to put a fixed prining. Instead what we have done is made a fixed procedure ,as seen below;

Folow these steps for Complex signage pricing

step 1	Get all the right information regarding the signage from customer
step 2	Pass on information to signage manager to make calculation
step 3	Get signage manages calculations approved by a director
step 4	Make changes and send quotation to customer

Cutting charge per hour	120,000
Engraving charge per hour	150,000

Engraving/Cutting	Sheet price	Plus Approrximate cut time
Gold/Black	100,000	Add
Silver/Black	100,000	Add
White/Black	100,000	Add
Red/ Black	100,000	Add
Alucobond	280,000	Add
Acrylic2mm	190,000	Add
Acrylic3mm	210,000	Add
Acrylic4mm	270,000	Add
Acrylic6mm	340,000	Add
Acrylic8mm	400,000	Add
Acrylic10mm	750,000	Add
Milk Acrylic2-3mm	320,000	Add
Colored Acrylic	260,000	Add

Steps to work out Engraving &Cutting Prices.

Step 1	Choose the material
Step 2	Check with signage manager how long engraving or cutting will take. Multiply that by the hourly engraving /citting charge.
Step 3	Add the material price & the cutting price.
Step 4	Calculate how many of the customers design will fit into a sheet and dived step3by that number.
